

## How To Do A Housing Application

**First: You need to know your UAM Login Credentials.**

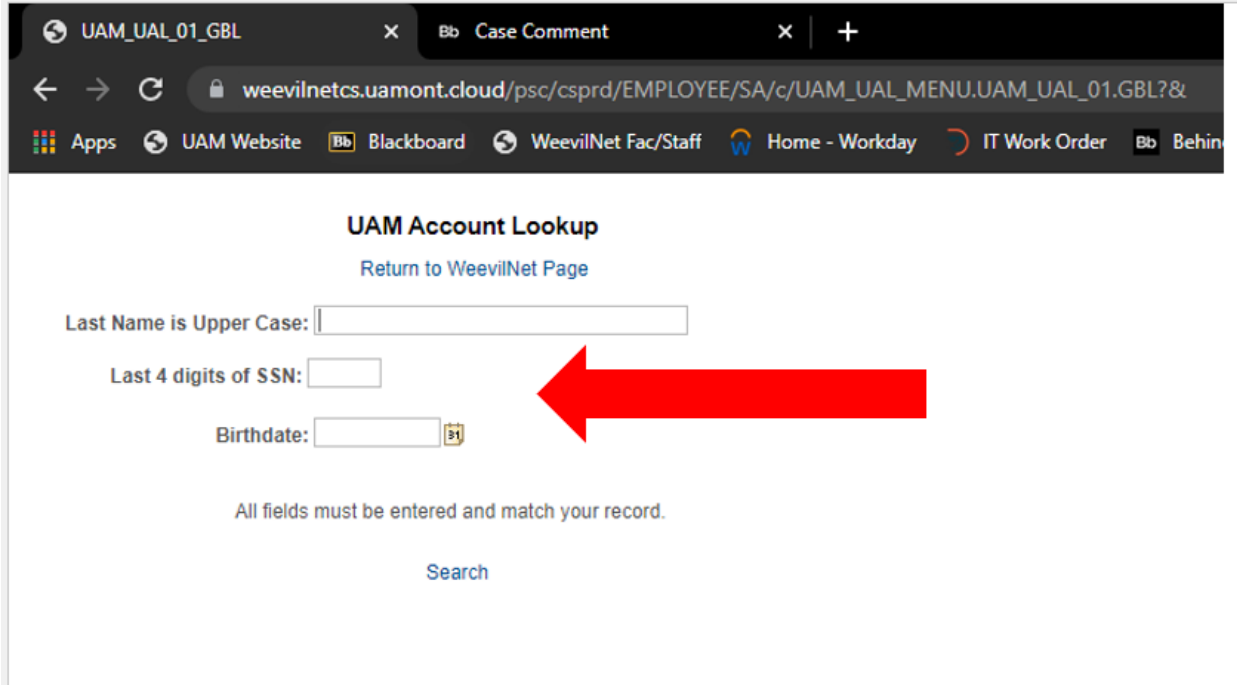

**Step 1 – A:** Open Google Chrome and go to [www.uamont.edu](http://www.uamont.edu). Under INFORMATION FOR: Click on the word STUDENTS.

**Step 1 – B:** Under the IT Resources area click on the ACCOUNT LOOKUP button to access the UAM Account Lookup screen.

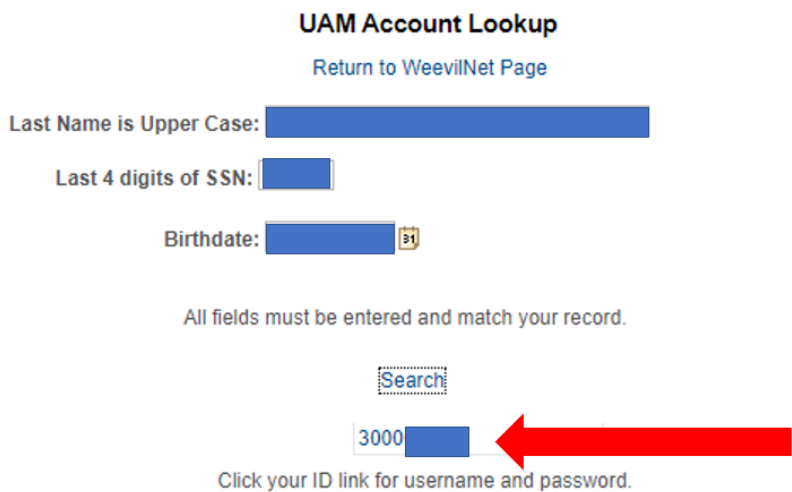

**Step 1 – C:** This should bring you to a white screen that says UAM Account Lookup. Enter your last name in uppercase (Example: WEEVIL), the last four digits of your Social Security Number (SSN) (Example: 1234 or XXXX if you do not have a Social Security Number), and use the Calendar icon to select your birthday (Example January 1st, 2021). Once all the information is entered click Search.

The screenshot shows a web browser window with the URL `weevilnetcs.uamont.cloud/psc/csprd/EMPLOYEE/SA/c/UAM_UAL_MENU.UAM_UAL_01.GBL?&`. The page title is "UAM Account Lookup" with a link to "Return to WeevilNet Page". The form contains three input fields: "Last Name is Upper Case:", "Last 4 digits of SSN:", and "Birthdate:". A red arrow points to the "Birthdate:" field. Below the fields is the text "All fields must be entered and match your record." and a "Search" button.

**Step 1 – D:** Your UAM Student ID Number will appear. Click on your UAM Student ID Number to get your credentials.

The screenshot shows the same "UAM Account Lookup" form, but the input fields are now filled with blue bars. The "Search" button is highlighted with a dashed border. Below the search button, the text "3000" is displayed next to a blue bar. A red arrow points to this "3000" ID number. Below the ID number is the text "Click your ID link for username and password."

**Step 1 – E:** Now you have all the information you need to access UAM systems. Your password is linked to all three of your accounts. Now go back to the UAM website.

**Step 1 – F:** On the UAM website, click on the myUAM portal link.

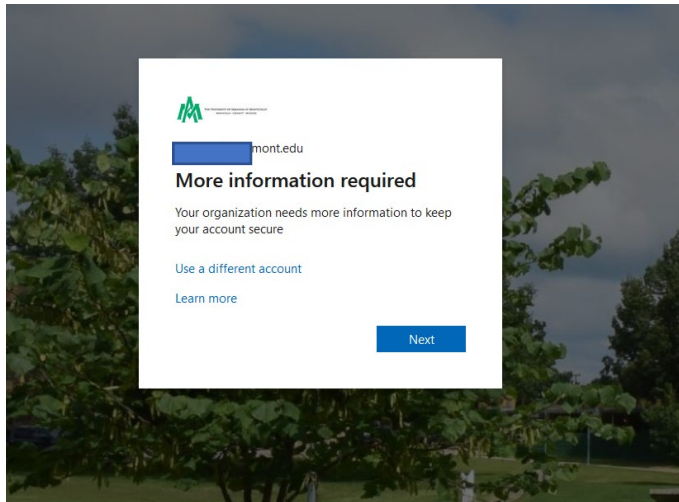

**Second:** You will need to set up your Multifactor Authentication verification process. Multi-Factor Authentication (MFA) is an additional layer of security that helps to protect your account. With MFA, you will be using something you know (your password) with something you have (your device/smartphone) to confirm your identity. MFA helps to better secure your accounts and other UAM resources by asking for a second form of authentication, which usually comes in the form of a notification from a mobile app, a text, or a call to your phone.

**Step 2:** Sign in with your UAM credentials (UAM E-Mail and UAM Password). Click “Next”.

**Step 3 - A:** You will now be prompted to set up your Multifactor Authentication. Click the “Next” button to continue.

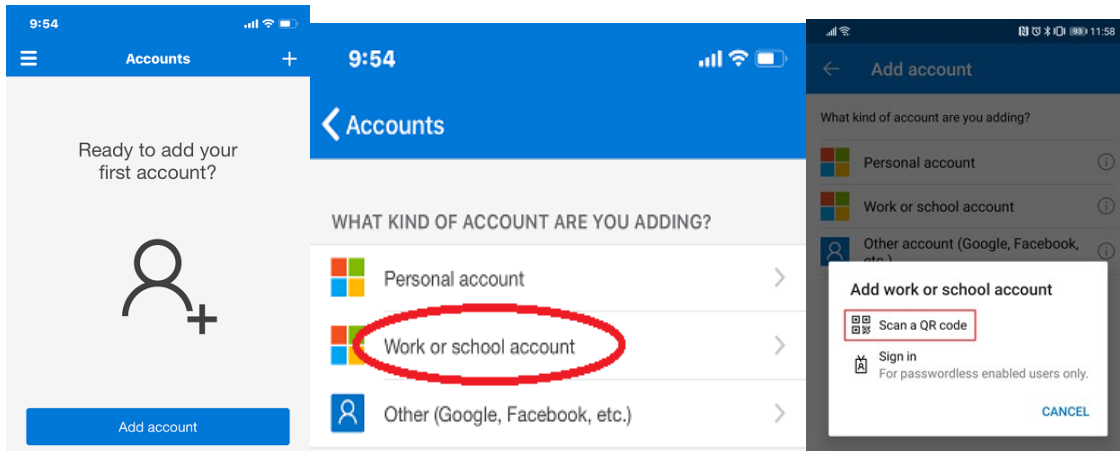

**Step 3 - B:** You will now be prompted to configure your Microsoft Authenticator App. **NOTE: Do NOT** click the “Next” button until you have the Microsoft Authenticator App downloaded and ready to set it up. See Step 3 - C

**Step 3 - C:** At this point, go to the Apple Store or Google Play Store on your mobile device. Download the Microsoft Authenticator app to your mobile device.

**Step 3 - D:** Open the app up on your mobile device. Click the “Add Account” button. Under What Kind Of Account, click on “Work Or School Account”. Then click on the “Scan a QR code” button.

**Step 3 - E:** Now you should be able to click the **“Next”** button to bring up the QR Code for you to scan. With your Authenticator app, scan the QR Code. You will then be prompted to approve the request. After that, you should see your account listed in your Microsoft Authenticator app on your mobile device.
