

UAM School of Agriculture Student Learning Outcomes

A student who graduates from the School of Agriculture should be able to:

1. Display knowledge of the local, state, and national agriculture industry and education system.
2. Perform critical reasoning, perceive assumptions, and make judgments based on the basic principles of animal science, plant and soil science, and agricultural economics.
3. Utilize sound decision-making techniques necessary for solving profitable farm and agribusiness management problems.
4. Identify prominent agricultural pests with their associated benefits/damages and the current management practices applied.
5. Demonstrate advanced knowledge and skills contained within courses for their chosen agriculture degree option.
6. Identify and successfully pursue employment opportunities in his/her chosen field of the agriculture industry.
