A yellow arrow points from the 'Publications and Media' section on the left to the 'Student Spyware Tools' link in the 'Information Technology' section on the right.

Next click on **Anti-spyware Tool**

Anti-virus Software		
Description	Download	Additional Info
Trend Micro Anti-Spyware	Online Utility	Trend Micro
Microsoft Defender	Spyware Protection Tool	Microsoft
Spybot Search & Destroy	Anti-spyware Tool	Spybot
Ad-Aware <i>Home use only</i>	Personal Edition	Lavasoft
Spyware Doctor for Windows <i>Home use only</i>	Personal Edition	PC Tools

Click on the **Download Now** button.

The screenshot shows the PCWorld website interface. At the top, there is a navigation bar with links for News, Reviews, How-To's, Downloads, Shop & Compare, Apps, and Business Center. Below this is a search bar and a sign-in link. The main content area features a 'Downloads' section with a breadcrumb trail: Downloads » Antivirus & Security » Anti-spyware Tools. The 'Spybot Search & Destroy' download page is displayed, showing a version of 1.6.2, a download count of 8,719,053, and a license type of Free. A yellow arrow points to the 'Download Now' button. To the right, there is a 'Popular in Anti-spyware Tools' list with items like BullGuard Internet Security and Advanced Spyware Remover. A sponsored link for 'Free Spyware Protection?' is also visible at the bottom.

Click on the **Download** button

A new screen will appear, on the right hand side click on the **Try a Free Scan** button

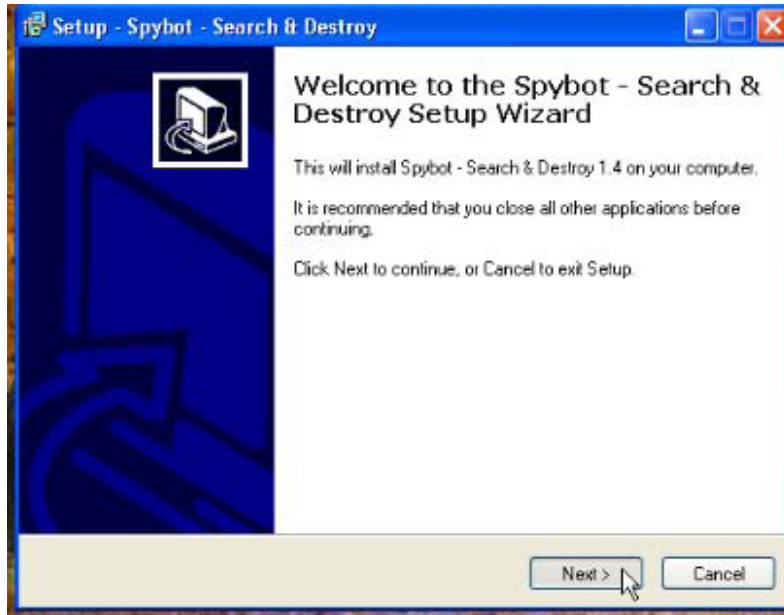

Click **Run**.

You will see a task bar that will keep informed of the progress being made to the installation. When the task is finished you will be asked to whether or not you would like to run the program. Click the Run button.

A new task bar will be shown. Then you will have the option to select a language to use during the installation. Once you've selected a language, click **OK**. The Spybot Search and Destroy Wizard will begin.

Follow each step paying close attention to the location of files and various preference options.

You will now start the last part of the wizard. You will see various dialog boxes that appear by themselves.

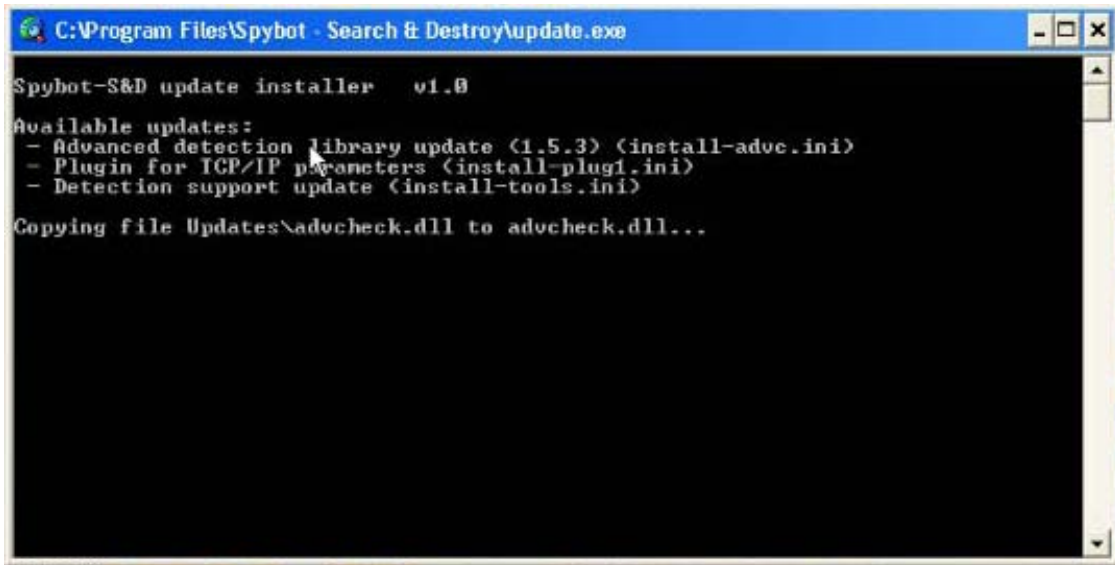

Finally, you will see the Spybot Dialog box and another Wizard. We recommend that you choose to Create a Backup Registry.

Once you click the Create Backup Registry button, the dialog box will change. Wait for the Next button to turn green to continue.

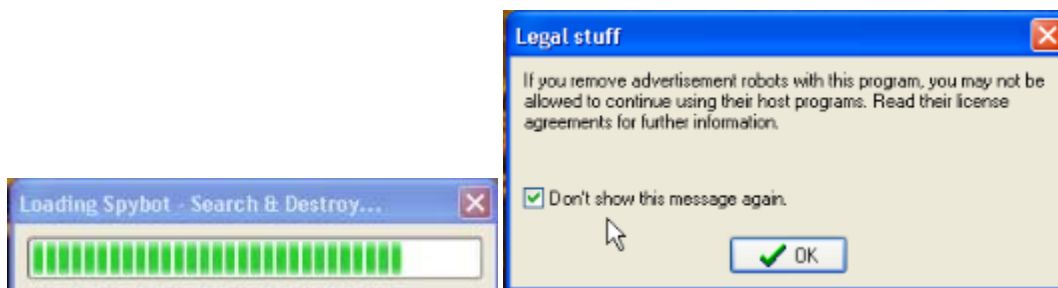

Click on the Download all available updates button.

Spybot will then search for the updates that your computer needs.

When it is finished, a screen similar to the one below will appear.

Another series of boxes will appear.

The Spybot Search & Destroy box will appear. Click on the **Search & Destroy** button.

Spybot will then search your computer for problems and they will be listed in red. When it is finished, click on the **Fix Selected Problems** button at the top of your screen.

A box will appear asking if you are sure that you want to correct these errors. Click **Yes**. Spybot will then inform you that your errors have been corrected.

When you are finished, you may close Spybot.
