

The University of Arkansas at Monticello is concerned for your well-being and is committed to providing helpful information to you. This brochure contains information that may be of use to you. Please read this information and, if you have any questions, contact Student Affairs; Gibson University Center, (870) 460-1053.

“The Student Right to Know and Campus Security Act” COMPLIANCE STATEMENT

The Student Right to Know and Campus Security Acts require that students and University personnel be notified of emergency procedures, campus security procedures and policies and the incidence rate of certain crimes which may have occurred on campus. If you need information beyond the information in this mailing, please contact the Student Affairs Office (460-1053).

Procedures & Facilities for Reporting Crimes & Other Emergencies

Students, faculty or staff encountering emergencies or violations of University regulations or local, state, or federal law should report these incidents to one of the following offices. Individuals should attempt to contact these offices in the order in which they are listed.

Medical Emergency -

1. Student Health Nurse - 460-1051
2. Department of Public Safety - 460-1000, or 460-1083
3. City of Monticello Police and Ambulance Switchboard - 460-6000

Other types of Emergency -

1. Department of Public Safety -460-1000, or 460-1083
2. City of Monticello Police and Ambulance Switchboard - 460-6000

Violations of Local, State or Federal Law -

1. Department of Public Safety -460-1000, or 460-1083
2. City of Monticello Police and Ambulance Switchboard - 460-6000

Violations of University Regulations -

1. Office of Student Affairs -460-1053
2. Department of Public Safety -460-1000,or 460-1083

Responses to these reports will vary according to the situations. Emergencies will receive immediate action to resolve the situation. Reported violations of local, state or federal law will be investigated by the Department of Public Safety. Information acquired in this investigation will be used in selecting an appropriate course of action. Options for action are: 1) pursuing the alleged violation through the Criminal Court System, 2) pursuing the alleged violation through the University Judicial System, or 3) taking no action. Reported violations of University regulations will be investigated and, where appropriate, adjudicated by the Student Affairs Office.

Campus Policies Concerning Security & Access to Campus

UAM has on-campus security 24 hours a day 7 days a week. Access to buildings varies according to the type of use being made of the facility. All facilities have open access during the school or work day. Administrative buildings close and are locked at 4:30 p.m. Academic facilities close and are locked at either 4:30 or after the last class is scheduled in the facility. Service buildings (i.e., library, university center) are open during posted hours. Access to residence halls by the opposite sex is restricted 24 hours a day. Members of the non-resident sex are allowed in the main lobby from 7:30 a.m. to 10:00 p.m. Sunday through Thursday and from 7:30 a.m. to 11:00 p.m. Friday and Saturday. Members of the non-resident sex may enter the living areas of the halls during posted hours. Members of

the non-resident sex may only be in the living area if they are escorted by a host or hostess. (Visiting hours are subject to change.)

Law Enforcement Authority of Department of Public Safety Personnel

All officers of the Department of Public Safety meet state mandated training requirements and are certified by the Arkansas Commission on Law Enforcement Standards. Officers have complete police authority on campus and adjacent streets.

Criminal & Drug Enforcement Policies & Educational Programs

All local, state and federal drug and alcohol laws are enforced on campus. The Student Affairs Office conducts regular education programs on drug and alcohol abuse. Annually, the Student Affairs Office and the Department of Public Safety distribute to all students and personnel information on procedures for reporting criminal actions, policies concerning campus security, criminal and drug enforcement policies and education programs, crime prevention programs, and statistics concerning criminal activities on campus.

Description of Security Awareness & Crime Prevention Programs

Crime prevention programs will be conducted in the residence halls under the direction of the Residence Life Office. The Director of Public Safety will compile campus crime statistics and these statistics will be distributed annually to all students and staff. Potentially dangerous situations will be published in and by appropriate campus resources.

Sexual Assault: Programs & Procedures

The Student Right to Know and Campus Security Act requires that students be provided information concerning campus sexual assault programs and the procedures which should be followed once an offense has occurred.

Procedures Students Should Follow if a Sexual Assault Occurs

Although it may be difficult, it is always best to report a sexual assault (rape, attempted rape, or acquaintance rape) to a University official or the local police. Individuals should report a sexual assault to any of the following offices at the University:

Counseling & Assessment Center	460-1454
Student Health Services	460-1051
Department of Public Safety	460-1083
Residence Life Office	460-1045

Individuals may also report a sexual assault to the Monticello Police (367-3411 or 460-6000), Drew Memorial Hospital (367-2411) or to Delta Counseling Associates (367-2461).

If you are sexually assaulted, you should report the attack to the police as quickly as possible. If the assault is reported within 72 hours of its occurrence and you cooperate with the police in providing information and evidence, the State of Arkansas pays for the medical examination. Also, if the offense is reported to the police, Victims Compensation can pay for the treatment of other injuries that occurred during the rape. Under any circumstances medical evaluation is important because of the possibilities of Sexually Transmitted Diseases and pregnancy. If you choose not to report to the police, the cost of the examination must be covered by you. Reporting the offense to the police does not mean that you must prosecute.

There are several important steps that should be taken after a sexual assault:

1. **DO NOT** shower, bathe, change clothes, urinate (if possible), brush your teeth or rinse your mouth, or change bedding or disturb the area where the assault occurred (if the assault occurred in your place of residence). **Remember**, it is important to preserve the evidence.
2. **TELL SOMEONE** . Call a friend, counselor, residence hall staff or anyone who can provide you with emotional support. **Seek medical attention**. Go to a doctor or hospital as quickly as possible for evidence to be gathered and to be checked for injury. Having someone with you as you go through this process is helpful. Take along extra clothing, toothpaste and toothbrush to clean up after the examination.
3. **WRITE DOWN** detailed information about the assault— where, when, who, etc. If the assailant is a stranger, try to remember his or her height, hair color, scars, clothing, eye color, or other distinguishing characteristics. Gathering evidence and writing information should be done, even if you do not intend to file criminal charges.
4. **FINALLY**, if you have or have not done any of the things suggested in steps 1 through 3, tell a Staff Member, a friend, or someone at the local mental health

Drug-Free Schools & Communities Act Amendments of 1989 Compliance Statement for Students

The Drug-Free Schools and Communities Act Amendments of 1989 require that the University annually distribute, to each student information concerning the use of alcohol and illicit drugs. Below are listed University policies, legal statutes, health risks, and available sources of treatment or counseling related to alcohol and illicit drugs.

University Policies & Sanctions

The Student Conduct Code states, “Possession, use, manufacture, or distribution of alcohol or illicit drugs is prohibited.” This policy applies to students on all University property and at University-sponsored events held off University property. Violation of this policy can result in a wide range of actions. Violations of this policy will result in sanctions ranging from probation to expulsion.

Statement of Local, State & Federal Law Applicability

All state and local and federal laws (See Appendix A) pertaining to controlled substances and alcohol abuse are enforced on campus. Sanctions for controlled substances range from a fine of \$575.00 for simple possession to twenty years for felony possession.

Sanctions for alcohol abuse vary according to the offense. Sanctions for DWI are as follows:

- | | |
|-------------|--|
| 1st Offense | - \$150 - \$1,000 Fine
Driver’s License Suspended for 120 days
24 Hours - 1 year in Jail |
| 2nd Offense | - \$400 - \$3,000 Fine
Driver’s License Suspended for 24 months
7 Days - 1 year in Jail |
| 3rd Offense | - \$900 - \$5000 Fine
Driver’s License Suspended 30 months
90 Days - 1 year in Jail |
| 4th Offense | - \$400 - \$5,000 Fine
Driver’s License Suspended 48 months
1 year - 6 years in Jail |

Alcohol & Illicit Drug Health Risks

The use of alcohol and other drugs has many adverse effects on the body. Initially, alcohol causes an increase in heart rate, then momentarily causes depression of the central nervous system. This depression leads to a decrease in heart rate, blood pressure, and respiratory rate. It also causes the brain to function in an abnormal manner resulting in slow reactions, speech and vision impairments, and problems with mechanical tasks such as walking and driving.

Over a long period of time, alcohol consumption may lead to cirrhosis of the liver, enlarged heart, congestive heart failure, gastritis, gastric ulcers, cancers of the mouth, esophagus and stomach, weakened muscles and bones, personality disorders, brain damage, and possibly, psychosis.

Alcohol consumption also causes malnutrition due to the fact that alcohol robs the body of many vitamins and minerals by interfering with their absorption. The decrease in appetite caused by alcohol and the substitution of alcohol for food are also contributors to nutritional deficits.

Other popular drugs such as anabolic steroids, cocaine, and marijuana also have severe health risks (See Appendix B). Anabolic steroids may cause overaggressiveness and sterility; cocaine causes severe depression, possible hallucinations and paranoia, and a change in blood pressure, heart rate, and respiratory rate which may lead to congestive heart failure; and marijuana causes alterations in mood, memory, motor coordination, cognitive ability, and self-perception.

Counseling & Treatment Services

Any student brought before the Judicial Board for disciplinary review of actions involving the use of drugs and/or alcohol will be referred to Student Affairs. Following an assessment, the University Counselor will determine whether a program of education, intervention, or treatment referral seems most appropriate and provide the necessary follow-up action.

Students wishing to seek help with an alcohol or illicit drug problem can contact UAM Office of Counseling, (870) 460-1454, or can contact Delta Counseling, (870) 367-2461, for counseling or treatment services.

Meningococcal Meningitis Advisement*

Meningococcal Meningitis is a rare but potentially dangerous illness. Although the risk of contracting this disease is low for the general population, there is a greater potential risk of outbreaks for college-aged students due to a prevalence of risk factors that are often part of campus life. These risk factors include residence hall living, active and passive smoking, bar patronage, and alcohol consumption. As a preventative measure, Student Health Services recommends students check with their health care providers for further information about available vaccines or contact us at (870) 460-1051.

*-as required by Arkansas Legislative Act 1233

Federal Trafficking Penalties

CSA	PENALTY - 1st Offense		DRUG	PENALTY - 2nd Offense	
	Quantity	Quantity		Quantity	Quantity
I	Not less than 10 years. Not more than life.	Not less than 5 years. Not more than 10 years.	METHAMPHETAMINE	400 per ounce or 1 kg or more mixture	Not less than 10 years. Not more than life.
	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.		1 kg or more mixture	If death or serious injury, not more than life.
II	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.	HEROIN	5 kg or more mixture	Not less than 10 years. Not more than 20 years.
	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.	COCAINE	50 gm or more mixture	If death or serious injury, not more than life.
III	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.	COCAINE BASE	100 gm or more mixture	Not less than 10 years. Not more than 20 years.
	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.	PCP	10 gm or more mixture	If death or serious injury, not more than life.

	If death or serious injury, not more than life.	If death or serious injury, not more than 20 years.		100 gm or more mixture	If death or serious injury, not more than life.

1. Law is originally enacted since 1996. Congress requested to make technical correction to 1 kg. 2. Does not include marijuana, hashish, or hash oil. (See separate chart)

Federal Trafficking Penalties - Marijuana

Quantity	Description	First Offense		Second Offense	
		Quantity	Penalty	Quantity	Penalty
1,000 kg or more; or 1,000 or more plants	Marijuana - Minimum containing 10% THC	Not more than 20 years. Not more than 10 years. Fine \$1 million individual, \$5 million not individual.	Not less than 10 years, not more than life. If death or serious injury, not less than 20 years. Fine not more than \$4 million individual, \$10 million other than individual.	Not more than 20 years. Not more than 10 years. Fine \$2 million individual, \$2 million not individual.	Not less than 20 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
100 kg to 1,000 kg; or 100-999 plants	Marijuana - Minimum containing 10% THC	Not more than 10 years. Not more than 5 years. Fine \$1 million individual, \$250,000 not individual.	Not less than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 10 years. Not more than 5 years. Fine \$1 million individual, \$250,000 not individual.	Not less than 10 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
50 to 100 kg	Marijuana	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
10 to 100 kg	Hashish	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
1 to 100 kg	Hashish Oil	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
50-99 plants	Hashish Oil	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
Less than 50 kg	Marijuana	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
Less than 10 kg	Hashish	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.
Less than 1 kg	Hashish Oil	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than 40 years. If death or serious injury, not less than 20 years, not more than life. Fine not more than \$2 million individual, \$5 million other than individual.	Not more than 5 years. Not more than 2 years. Fine \$250,000 individual, \$50,000 not individual.	Not more than 5 years, not more than life. If death or serious injury, not less than life. Fine not more than \$8 million individual, \$20 million other than individual.

*Includes Hashish and Hashish Oil
