

**UNIVERSITY OF ARKANSAS AT MONTICELLO
COLLEGE OF TECHNOLOGY - CROSSETT
MISSION**

The mission the University of Arkansas–Monticello shares with all universities the commitment to search for truth and understanding through scholastic endeavor. The University seeks to enhance and share knowledge, to preserve and promote the intellectual content of society, and to educate people for critical thought. The University provides learning experiences that enable students to synthesize knowledge, communicate effectively, use knowledge and technology with intelligence and responsibility, and act creatively within their own and other cultures.

The University strives for excellence in all its endeavors. Educational opportunities encompass the liberal arts, basic and applied sciences, selected professions, and vocational/technical preparation. These opportunities are founded in a strong program of general education and are fulfilled through contemporary disciplinary curricula, certification programs, and vocational/technical education or workforce training. The University assures opportunities in higher education for both traditional and non-traditional students and strives to provide an environment which fosters individual achievement and personal development.

The University of Arkansas–Monticello seeks to fulfill its mission by:

1. Offering quality educational opportunities in the form of master's, baccalaureate, and associate degree preparation, as well as certification in a variety of vocational/technical programs, or workforce training;
2. Offering a well-rounded program of general education designed to broaden and enrich students' awareness of the world around them;
3. Providing contemporary curricula which prepare students for careers in selected fields, for personal development, and for meeting societal needs;
4. Strengthening students' capabilities as thoughtful contributors to society by encouraging them to take personal responsibility and seek the benefits of life-long learning;
5. Providing support programs which increase the probability of success for those students needing additional academic preparation to meet college standards;
6. Assisting students in developing interpersonal skills needed by responsible and productive members of society;
7. Providing viable programs of public service, continuing education in selected areas, and cooperative programs with other educational institutions;
8. Promoting research programs which strengthen the institution and contribute new information to the existing body of knowledge and the extension of knowledge to serve the public;
9. Providing cultural and aesthetic experiences that will serve to enhance appreciation of the arts;
10. Maintaining regional and national recognition of the institution and its academic and technical programs by continuing to meet the standards of accrediting bodies, and seeking similar recognition of appropriate programs for which accreditation is available but yet to be achieved;
11. Preparing students to live and work in a technological and global society.

ACCREDITATIONS/CERTIFICATIONS

UAM College of Technology-Crossett is accredited by the North Central Commission on Accreditation and School Improvement. The Arkansas State Board of Nursing certifies UAM-CTC's Practical Nursing Program, and UAM-CTC's programs are approved by the State Approving Agency for Veterans. UAM-CTC is accredited by the Council on Occupational Education (COE); persons wishing to make comments to the Commission of the Council on Occupational Education may contact the Executive Director at 41 Perimeter Center East, NE, Suite 640, Atlanta, GA 30346, (770) 396-3898, ext. 21.

**UNIVERSITY OF ARKANSAS AT MONTICELLO
COLLEGE OF TECHNOLOGY-CROSSETT
STAFF/FACULTY MEMBERS**

Administration

Vice Chancellor	Linda Rushing
Associate Vice Chancellor of Technical Education	
Project Coordinator	Janie Carter
Student Services Coordinator	Mitch Powell
Administrative Assistant	Susan Smith
Bookstore/Cashier	Patricia Todd
Accounting Technician	Lorraine Carr
Secretary	Stephanie Morgan
Secretary/Receptionist	

Faculty

Administrative Information Processing	Sherry Harris
Computer Maintenance/Networking	B. J. Vail, Jr.
Electromechanical Technology	Kirk Kemp
Electromechanical Technology	Thomas Swan
Health Information Technology	Tonya Smith

**UNIVERSITY OF ARKANSAS AT MONTICELLO
2008-09 CALENDAR**

Summer II 2008

June 23	(Mon)	Application deadline for regular registration.
July 1	(Tues)	Registration for undergraduate and graduate classes. <u>First day of classes</u>
July 2	(Wed)	Last day to register or add classes.
July 4	(Fri)	Independence Day Holiday. Offices/classes closed.
July 25	(Fri)	Last day to drop an undergraduate class. Grade will be W.
July 31	(Thur)	Last day of undergraduate classes. Final exams.
August 4	(Mon)	Summer conferral of degrees.

Fall 2008

August 11	(Mon)	Application deadline for regular registration. Tuition and fees due for preregistered students. Schedule changes for preregistered students.
August 12-15	(Tues-Fri)	Professional Development for faculty and staff.
August 18	(Mon)	Schedule changes. New student orientation. Night registration.
August 19	(Tues)	Open registration.
August 20	(Wed)	<u>First day of classes.</u>
August 26	(Tues)	Last day to register or add classes.
September 1	(Mon)	Labor Day Holiday. Offices/classes closed.
October 3	(Fri)	Deadline to file for May graduation.
November 3	(Mon)	Preregistration for Spring 2008 begins.
November 5	(Wed)	Last day to drop with W.
November 14	(Fri)	Preregistration for Spring 2008 ends.
November 26	(Wed)	Classes closed.
November 27-28	(Thurs-Fri)	Thanksgiving Holiday. Offices/classes closed.
December 2	(Tues)	Last day to withdraw from class.
December 5	(Fri)	Last day of classes.
December 6-12	(Wed-Tues)	Final exam period.

Spring 2009

January 5	(Mon)	Application deadline for regular registration. Tuition and fees due for preregistered students.
January 12	(Mon)	Schedule changes. New student orientation. Night registration.
January 13	(Tues)	Open registration.
January 14	(Wed)	<u>First day of classes.</u>
January 19	(Mon)	Martin Luther King Holiday. Offices/classes closed.
January 21	(Wed)	Last day to register or add classes.
February 27	(Fri)	Deadline to file for August or December graduation.
March 16-20	(Mon-Fri)	Spring Break.
April 6	(Mon)	Preregistration for Summer and Fall 2008 begins.
April 8	(Wed)	Last day to drop with W.
April 17	(Fri)	Preregistration for Summer and Fall 2008 ends.
April 30	(Thurs)	Last day to withdraw from class.
May 5	(Tues)	Last day of classes.
May 6-12	(Wed-Tues)	Final exam period.

Summer I 2009

May 25	(Mon)	Memorial Day Holiday. Offices/classes closed.
May 26	(Tues)	Application deadline for regular registration.
June 1	(Mon)	Registration. <u>First day of classes.</u>
June 2	(Tues)	Last day to register or add classes.
June 25	(Thurs)	UAM-CTC Graduation
June 25	(Fri)	Last day to drop an undergraduate class. Grade will be W.
June 30	(Tues)	Last day of undergraduate classes. Final exams.
June 30	(Tues)	Registration for Summer II.

ADMISSIONS INFORMATION

University requirements include:

- (1) a completed application for admission,
- (2) college entrance exam scores, and
- (3) official academic transcripts.

Requirements mandated by law:

- (1) Proof of immunization against measles (two doses) mumps, and rubella (one dose.)
- (2) A selective service statement. Students who are required to register with selective service must sign a statement attesting that they have registered or are exempt from doing so. This statement appears on the application for admission and must be completed by all male applicants
- (3) Proof of tuberculin skin testing within the last six months for foreign-born students, and
- (4) A signed program of study or waiver for first-time freshmen

All first-time freshmen graduating from high school after May 1, 1999, will be admitted unconditionally provided they have successfully completed, with a minimum cumulative grade point average of 2.00 (on a 4.00 scale), the Arkansas high school core curriculum for unconditional admission to public colleges and universities. Out-of-state high school graduate transcripts will be evaluated individually to determine if the core curriculum and the grade point requirements are met. Students who receive a GED or who are graduates of home schooling or private high schools must make a composite of 19 on the ACT or the equivalent score on the ASSET, COMPASS, or SAT in order to be unconditionally admitted.

Students not meeting the standards as stated above will be admitted with conditions, as directed by the Office of Academic Affairs.

NOTE: Detailed additional admission status and information is available through the UAM catalog or Office of Admissions at 1-800-844-1826 or the UAM-CTC Counselor at 870-364-6414 or 1-866-323-3384.

PROGRAM LENGTHS

UAM-CTC operates on a semester system as indicated on the school calendar. In addition to the spring and fall semesters, there is a Summer I Term and a Summer II Term. The number of credits required to meet graduation requirements varies from program to program as outlined in the program descriptions and as follows:

- Administrative Information Processing – Technical Certificate, 39 Credits
 - Computer Maintenance/Networking – Technical Certificate, 39 Credits
 - Electromechanical Maintenance – Technical Certificate, 38 Credits
 - Electromechanical Technology Instrumentation–Technical Certificate, 28 Credits (does not include pre-requisites)
 - Health Information Technology – Technical Certificate, 39 Credits
 - Hospitality Services – Technical Certificate, 35 Credits
 - Practical Nursing – Technical Certificate, 42 Credits (does not include pre-requisites)
 - Welding Technology – Technical Certificate, 37 Credits
-
- Associate of Applied Science Degree in Industrial Technology – 72 Credits
 - Associate of Applied Science Degree in General Technology – 64 Credits

COURSE SCHEDULES

Courses required for graduation from a technical certificate program are usually scheduled between 8 a.m. and 4 p.m. Monday through Friday. In order to assist students (including rotation shift workers) with graduation requirements, courses may be offered at night if justified by sufficient demand. Usually a minimum of twelve students in each of the day and night sessions is required.

CONTINUING EDUCATION (CLOCK-HOUR) COURSES

Continuing education (clock-hour) courses are offered by UAM-CTC on campus and at various locations throughout Ashley, Bradley, and Drew Counties. These courses are offered based on sufficient demand. Courses are also designed and taught for business and industry to assist employers with the training of their employees.

Individuals interested in taking a particular course should contact the school to indicate their interest and to seek information. Some courses have prerequisites, but there are no additional entrance requirements for non-credit continuing education (clock-hour) courses except that an individual should be 17 years of age or older or have graduated from high school. Courses leading to licensure require that an individual be 18 years of age or older in order to take credentialing examinations.

The cost of continuing education courses will vary according to the course curriculum, books, and supplies needed.

READMISSION OF FORMER STUDENTS

A student who attended Forest Echoes Technical Institute in previous years must meet all admission requirements in order to resume his/her course of study.

Former UAM-CTC students who have attempted fewer than 30 hours of credit and who have not attended a post-secondary institution during the last two years (24 months) will be placed under the UAM catalog in effect when they are re-admitted. The catalog chosen and the student's graduation may not span a period of more than six years.

EARLY ADMISSION

Students who submit an application for admission, entrance exam and placement test scores, proof of immunizations against measles, mumps, and rubella, a high school transcript, and a letter from the principal indicating that the student may enroll in college level work may be admitted during the senior year of high school. Following graduation from high school, the student must request that a final official transcript reflecting all credits, grades, and graduation date be sent to UAM-CTC.

TRANSFER ADMISSION FOR TECHNICAL CERTIFICATE COURSES

In addition to general admission requirements, the student who has attended other post-secondary institutions must assure that transcripts of all work attempted from all post-secondary institutions attended be sent from those institutions directly to UAM-CTC. Transfer credit will be granted only for those courses with a 2.0 ("C") grade or above that meet required course curriculum standards. See "Credit/Transfer Credit Previous Training" in the Academic Regulations section of the UAM-CTC Handbook. If a student desires to transfer credit for courses taken at UAM-CTC to another post-secondary institution, he/she should be fully aware that the determination for accepting transfer credits will be made by the admitting post-secondary institution.

TUITION/FEES

Tuition for technical certificate courses is \$62 per credit hour for all semesters and terms. A tech fee of \$4 and a facilities fee of \$2 per credit hour per semester or term will be required of all students and an assessment fee of \$5 per semester or \$2.50 per summer term. A late fee of \$25 will be charged for all students enrolling after the designated registration time.

Tuition is \$62 per credit hour for general studies/academic courses that are required for the completion of an Associate of Applied Science degree and are taught on the UAM-CTC campus by an on-site instructor. General studies courses may also be available on campus through Compressed Interactive Video (CIV) at a higher rate of tuition. A tech fee of \$4 and a facilities fee of \$2 per credit hour per semester or term will be required of all students and an assessment fee of \$5 per semester or \$2.50 per summer term. A late fee of \$25 will be charged for all students enrolling after the designated registration time.

Out-of-state tuition for will be waived from the contiguous states of Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas.

NOTE: *Students attending 12 credit hours or more per fall and spring semester and six credit hours per summer term will be considered full-time.*

NOTE: *Tuition and fees are subject to change upon approval by the University of Arkansas (UA) Board of Trustees.*

TRANSCRIPTS

A fee of \$5.00 will be assessed for each transcript requested. The fee must be paid in advance and a transcript request form completed at that time. Fees can be paid at the administration office (cashier).

ATTENDANCE POLICY

Regular and prompt attendance is expected of all students enrolled at UAM-CTC and is necessary to maintain satisfactory progress. Attendance will be recorded for each student by course.

STANDARDS OF PROGRESS

Each student is expected to make satisfactory progress toward the completion of his/her program. Each student will receive a grade and an evaluation report at the end of each semester or term. A student will receive a grade only at the end of each summer term, due to the short time of courses. (Note: If a course is scheduled during a semester and will end before or at mid-semester, the student will receive a grade only at the end of the course.)

When a student retains a "C" (2.00) average or above but makes a failing grade of "F" (64% or below) in any course in the program curriculum, that course must be retaken and passed with a grade of "D" (65%) or above to satisfy graduation requirements.

The satisfactory progress policy for the Practical Nursing Program requires that a student have a "C" (76%) grade average or above in each course for each semester or summer term. If a nursing student does not make a grade average of "C" (76%) or above upon completion of each course, the student will be suspended from the program at that time. A Practical Nursing student does not have to first be placed on conditional academic standing before being suspended since the Practical Nursing Program policies require that the student must make a "C" (76%) grade average or above in each completed course for each semester or summer term in order to continue in the program.

The following grading system will be utilized to evaluate students at mid-semester and at the end of the semester:

<u>Grade – Meaning of Grade</u>	<u>Percent</u>	<u>Grade Points</u>
“A” – Outstanding	93%-100%	4
“B” – Good	85% - 92%	3
“C” – Average	76% - 84%	2
“D” – Passing*	65% - 75%	1
“F” – Unsatisfactory work or Withdrew-Failing	0% - 64%	0

*A grade of “C” or better must be earned in some courses in order to progress to a higher-level course or to graduate in some programs.

“CR”	Credit Received (no grade points)
“W”	Withdrew-Passing (no grade points)
“I”	Required Work Incomplete (no grade points)**

**Any student receiving an “I” (Incomplete) will have a maximum of one year to satisfy the requirements for the course. Failure to complete course requirements within one year will automatically replace the incomplete with a grade of “F” with the credits and grade point averages recalculated to reflect this change. See the “Academic Regulations” section in the University catalog for specific guidance regarding an “Incomplete.”

The following will not be used in calculating grade point averages (GPA’s): “CR,” “W,” or transfer grades from another institution.

GRADUATION REQUIREMENTS - TECHNICAL CERTIFICATES

A student completing a program of study at UAM-CTC as approved by the Arkansas Department of Higher Education with a grade point of 2.00 or above will receive a technical or an advanced technical certificate. Courses required for graduation are listed under each program area. If circumstances make it necessary to make course substitutions within the curriculum prior to the courses being taken by the student, the student will be made aware of those substitutions and will be required to take those courses substituted for classes deleted from their original curriculum. All programs require certain mathematics and communications courses. A student who tests out of required math and communications courses can enroll in elective courses (if scheduling permits). It is the student’s responsibility to check course offerings each semester to determine which courses should be taken to fulfill graduation requirements.

JOB PLACEMENT

Program graduates and interested students are highly encouraged to keep an updated resume and application (every sixty days) on file at an Arkansas Workforce Center. Ashley County’s Center, located at 304 Alabama Street in Crossett, provides access to multiple resources through its “One-Stop” design and offers career planning and placement guidance for area residents and employers, as well as placement services for business and industry. The region’s Employment Security Department, Department of Human Services, Veterans Administration, Arkansas Rehabilitation Services, and numerous other agencies represented in the Center partner to provide collaborative services that are easily accessible for consumers and that are both cost efficient and effective for service providers.

The school’s staff works closely with business and industry in assisting graduates with obtaining employment. The Arkansas Workforce Center, advisory committees, and various agencies are utilized to assist graduates in placement; however, the school does not guarantee employment.

Announcements received from companies concerning job openings and employment recruiting procedures will be provided to instructors for referrals and/or posted on bulletin boards for students' information.

Students will receive employability training that will assist them in finding, getting, and keeping a job. Students will be allowed to go for job interviews during their final semester or summer term without counted absences provided their interview is for a job that is related to their field of training and they have requested permission and approval from their instructor prior to the interview. Students will be required to submit documentation of their interview to the instructor. Students wishing to go for a job interview during school who are not in their final semester (or summer term) must receive approval from their instructor and from Administration, if they do not want the missed classes to count as absences.

ADULT EDUCATION

The Adult Education Program at UAM-CTC is designed to strengthen an individual's academic skills in reading, language, math, and other subjects. The program is open to individuals eighteen (18) years of age or over who are not enrolled in a high school. An applicant for enrollment may be asked to provide proof of age. Enrollment of individuals under the age of 18 is governed by Act 1659 of 2001 and Act 604 of 2003. The program serves non-high school graduates desiring to earn a high school equivalency diploma (GED) as well as high school graduates who need academic refresher courses to prepare for employment tests, college and military entrance tests, etc.

There is no cost for classes in the Adult Education Program, and all classes operate on an open-entry/open-exit basis. Orientation and assessment sessions are scheduled on a regular basis. A student is not officially enrolled in the Adult Education Program until he/she has completed 12 hours of classroom instruction. Because the U.S. Department of Education and the Arkansas Department of Workforce Education mandate the 12-hour attendance requirement, students are urged to attend at least 12 hours before leaving the program.

Adult education classes are offered on the UAM-CTC campus, at a Crossett satellite site, and in Hamburg during the day and night according to the following schedules and at other locations based on demand:

Fall & Spring Semesters	Summer Session*
Monday thru Thursday 8 a.m. - 1 p.m. 1:30 p.m. – 3:30 p.m.	Monday thru Thursday 8 a.m. - 1 p.m.
Monday & Tuesday 5 p.m. - 8 p.m.	Monday & Tuesday 5 p.m. - 8 p.m.

*Summer Session adult education classes are generally Mid-May through mid-August. See adult education personnel for exact dates.

UAM-CTC also provides a free GED online study program. Enrollment and participation requirements include completing an assessment, orientation, the Official Practice GED Test and the actual GED test on site at one of the program locations

Instructors for the Adult Education Program are licensed teachers, and several instructors are certified to screen students for learning and vision problems. All screening is strictly confidential and will not be shared nor referrals made without the written permission of the student.

There is no specific attendance policy for adult education classes. Students may attend classes based upon their needs and preferences. The only exceptions to this attendance policy are

those students who are below the age of 18 and have been referred to the Adult Education Program by a public school, court, or other qualifying agency. Such referred students must agree in writing that they will abide by specific attendance guidelines or they will be dropped from the program.

ASSOCIATE OF APPLIED SCIENCE DEGREES

Students attending UAM-CTC may enter a program that allows them to earn an Associate of Applied Science degree. The courses required for the AAS will be offered on the UAM-CTC campus.

- **AAS in Industrial Technology:**

Students who have satisfactorily completed the Electromechanical Technology-Instrumentation Program or the Electromechanical Technology-Industrial Controls Program at UAM-CTC will be granted credit hours toward an Associate of Applied Science degree (AAS). With the completion an additional 15 credit hours, the student may earn an AAS in Industrial Technology.

Additional General Education Courses

The 15 hours of general education courses will be selected from the following:

- English/Writing (6 semester credit hours):
 - Either English Composition and/or Technical Writing
- Mathematics (3 semester credit hours):
 - Intermediate Algebra or higher-level math course
- Social Science (3 semester credit hours):
 - An introductory course appropriate for the field of study, e.g.:
 - Psychology,
 - Sociology,
 - Economics,
 - Survey of Civilization,
 - Government, etc.
- CIS 1013 Introduction to Computer-based Systems (3 semester credit hours) OR
CIS 2223 Microcomputer Applications (3 semester credit hours)

- **AAS in General Technology:**

- **Option 1:** A student completes all the requirements for a one-year technical certificate. Student must also complete the required 15 hours of general education courses plus additional elective hours (either technical or general education courses) for a total of 64 credit hours.

Required General Education Courses: 15 hours

ENGL 1013 Composition I

ENGL 1023 Composition II

One of the following:

MATH 0183 Intermediate Algebra or

MATH 1043 College Algebra or higher level math course

One of the following:

CIS 1013 Introduction to Computer-based Systems or

CIS 2223 Microcomputer Applications

One of the following, appropriate for the field of study:

ECON 2203 Principles of Macroeconomics

ECON 2213 Principles of Microeconomics

HIST 1013 Survey of Civilization I

HIST 1023 Survey of Civilization II
HIST 2213 American History I
HIST 2223 American History II
PSY 1013 Introduction to Psychology
SOC 2213 Introduction to Sociology
PSCI 2213 American National Government

All of the general education courses, with the exception of MATH 0183, may be applied toward a baccalaureate degree at UAM or transferred to another university.

- **Option 2:** A student completes 28 hours in a major technical area and 21 hours in the technical core of support courses from other related technical disciplines and completes 15 hours of required general education courses. With the approval of the academic advisor or unit head and the Vice-Chancellor of Academic Affairs, the student may select courses from one or more technical disciplines and develop a coherent technical program that will prepare him/her for employment in occupational and technical fields.

Required General Education Courses: 15 hours

ENGL 1013 Composition I
ENGL 1023 Composition II

One of the following:

MATH 0183 Intermediate Algebra or
MATH 1043 College Algebra or higher level math course

One of the following:

CIS 1013 Introduction to Computer-based Systems or
CIS 2223 Microcomputer Applications

One of the following, appropriate for the field of study:

ECON 2203 Principles of Macroeconomics
ECON 2213 Principles of Microeconomics
HIST 1013 Survey of Civilization I
HIST 1023 Survey of Civilization II
HIST 2213 American History I
HIST 2223 American History II
PSY 1013 Introduction to Psychology
SOC 2213 Introduction to Sociology
PSCI 2213 American National Government

All of the general education courses, with the exception of MATH 0183, may be applied toward a baccalaureate degree at UAM or transferred to another university.

ADMINISTRATIVE INFORMATION PROCESSING

Program Description

The Administrative Information Processing Program is designed to prepare students for employment as data entry operators, word processing operators, accounting clerks, receptionists, administrative assistants, executive secretaries, and members of management.

Curriculum

Administrative Information Processing students receive computer training in using Windows, database management, spreadsheet applications, desktop publishing, and word processing. English and communication courses developed specifically for business are integral parts of the program. Students have the opportunity to enhance and refine their skills in the Tech Vocabulary Development and the Tech Administrative Support Procedures courses. Field trips to offices technologically ready for the 21st century, up-to-date videotapes, current business publications, and classes on job seeking give the student the self-confidence needed to make successful applications for employment.

The program length for a full-time student is two (2) semesters and one (1) summer term. The program costs are \$2,700 for tuition and fees and approximately \$1,400 for books and supplies.

GRADUATION REQUIREMENTS (Suggested Schedule)

	<u>Fall Semester</u>	<u>Credit Hours</u>
BUS 1203	Tech Keyboarding	3
BUS 2003	Tech Business English OR ENG 1013 Composition I	3
BUS 1123	Tech Accounting I	3
BUS 1503	Tech Word/Information Processing	3
BUS 1113	Tech Business Machines	3
	Exit: Office Support Certificate of Proficiency	(15)
	<u>Spring Semester</u>	
BUS 1213	Tech Keyboarding Applications	3
BUS 1563	Tech Administrative Support Procedures	3
BUS 1303	Tech Computer Applications for Business OR CIS 2223 Microcomputer Applications	3
BUS 2013	Tech Business Communications	3
BUS 2143	Tech Business Mathematics	3
BUS 1603	Tech Vocabulary Development	3
	<u>Summer Term I</u>	
BUS 1383	Tech Spreadsheet Applications	3
BUS 2623	Tech Business Practicum	3
	Total Hours	39
	Exit: Technical Certificate In Administrative Information Processing	

**CHILD DEVELOPMENT ASSOCIATE
Certificate of Proficiency**

Description

The Child Development Associate (CDA) training program provides students with the opportunity to develop knowledge and skills necessary for the CDA certification which is mandatory in many childcare facilities and educational settings, especially those receiving state and/or federal funding. The required certification has enhanced the quality of childcare services being provided.

Curriculum

The CDA requires twelve (12) credit hours of college courses that lead to a Certificate of Proficiency and provides eligibility to apply for National certification granted by the Council for Early Childhood Professional Recognition in Washington, D. C. Semester credit hours earned for the CDA may be applied toward a technical certificate in Early Childhood Education (offered on the McGehee campus), and with approval may apply as electives toward an Associate of Applied Science or more advanced degree.

The Child Development Associate Certificate of Proficiency can be obtained in two (2) semesters. The costs are \$850 for tuition and fees and approximately \$225 for books and supplies.

Major Requirements: 12 hours

ECED 1053 Environments in Early Childhood
ECED 1043 Development and Curriculum in Early Childhood
ECED 1063 Foundations of Early Childhood Education
ECED 1071 Introduction to Practicum
ECED 1082 Practicum I

SCHEDULE

		<u>Fall Semester</u>	<u>Credit Hours</u>
ECED	1053	Environments in Early Childhood	3
ECED	1063	Foundations of Early Childhood Education	
		<u>Spring Semester</u>	
ECED	1043	Development and Curriculum in Early Childhood	3
ECED	1071	Introduction to Practicum	1
ECED	1082	Practicum I	2
		Total Hours	12
		Exit: Child Development Associate Certificate of Proficiency	

COMPUTER MAINTENANCE/NETWORKING

Program Description

The Computer Maintenance/Networking Program prepares individuals for entering occupations in the information technology (IT) field that involve troubleshooting, repair, and maintenance of personal computers (PCs). Skills are developed by hands-on practice in electronic circuit testing, computer assembly, computer upgrades and configurations, and computer networks.

Curriculum

Cisco System classes that teach students to design, build, and maintain computer inter-networks are incorporated into the Computer Maintenance/Networking Program. Students are prepared for industry standard certifications, including the Cisco Certified Network Associate (CCNA™), A+, and the Building Industries Consulting Service International, Inc., (BICSI) Installer Level I exam. Individuals interested in only the Cisco classes may enroll in Networking as a stand-alone program.

The program length for a full-time student in Computer Maintenance/Networking is two (2) semesters and one (1) summer term. The program costs are \$2,675 for tuition and fees and approximately \$500 for books and supplies.

GRADUATION REQUIREMENTS

(Suggested Schedule)

		<u>Fall Semester</u>	<u>Credit Hours</u>
MAT	2214	Advanced Industrial Mathematics	4
CMP	1012	Tech Network Servers	2
CMP	1024	Tech Computer Maintenance/Core Hardware	4
CMP	1903	Tech Fundamentals of Electronics	3
CSC	2034	Tech Cisco Network Exploration I <u>OR</u> CMP 1034 Tech Networking I	4
Exit: Computer Repair and Networking Certificate of Proficiency			(17)
		<u>Spring Semester</u>	
CMP	1064	Tech Operating Systems	4
CMP	1504	Tech Fundamentals of Voice and Data Cabling	4
CSC	2044	Tech Cisco Network Exploration II <u>OR</u> CMP 1044 Tech Networking II	4
COMM	1203	Technical Communications or higher-level composition course	3
CMP	1053	Tech Network Security	3
		<u>Summer Term I</u>	
CMP	1802	Tech Computer Peripheral Maintenance	2
COMM	1102	Employability Skills/Ethics	2
Total Hours			39
Exit: Technical Certificate in Computer Maintenance/Networking			

ELECTROMECHANICAL MAINTENANCE

Program Description

The Electromechanical Maintenance (ELM) program is designed to prepare individuals for entry-level maintenance jobs in industrial settings that require electrical/electronic and mechanical skills. While the program focuses primarily on industrial settings, graduates of the program are prepared for maintenance jobs in a variety of workplaces such as schools, hospitals, banks, government agencies, and independent contractors.

Curriculum

Upon satisfactory completion of the one-year ELM Program, graduates will receive a technical certificate. For graduates desiring to continue their training, all of the courses completed in the ELM Program will serve as prerequisites for the Electromechanical Technology Instrumentation Program which is a technical certificate program that leads to an Associate of Applied Science Degree in Industrial Technology.

Some of the courses in the Electromechanical Maintenance Program may be offered both day and night to accommodate rotation shift workers provided there is sufficient enrollment to support duplicate offerings.

The length of the ELM Program for a student attending full-time is two (2) semesters and one (1) summer term. Program costs for tuition and fees are \$2,675 and approximately \$750 for books and supplies.

GRADUATION REQUIREMENTS

(Suggested Schedule)

**Exit: Technical Certificate In
Electromechanical Maintenance**

ELECTROMECHANICAL TECHNOLOGY - INSTRUMENTATION

Program Description

The Electromechanical Technology Instrumentation Program is designed to provide individuals with the advanced industrial, electrical, mechanical, and instrumentation skills needed to become technicians in highly developed industrial environments.

Curriculum

The prerequisite curriculum of the Instrumentation program includes all the courses required for the Electromechanical Technology (ELM) Program. Therefore, if a student does not complete the advanced courses required for the Instrumentation technical certificate, he or she may receive a technical certificate for the Electromechanical Maintenance Program (provided all of the required ELM courses were completed with a cumulative grade point of 2.00).

The number of students accepted into the Instrumentation option is limited to twenty full-time students. Due to the structure of the curriculum and limited resources, the Instrumentation curriculum is offered only in the day. Because some of the courses within the curriculum are also required in other programs, there may be some courses offered both day and night; however, because these courses are for other programs also, the courses may not be offered in the order needed to meet course prerequisites in the Instrumentation program.

Upon satisfactory completion of all requirements for this program, an individual will be awarded a technical certificate in Electromechanical Technology Instrumentation. A graduate will be able to transfer the credits earned in this program toward an Associate of Applied Science Degree in Industrial Technology. An additional 15 credit hours are needed to meet the requirements of the Associate of Applied Science Degree in Industrial Technology. All of the courses required for the Associate of Applied Science Degree are offered on the UAM-CTC campus.

The length of the Electromechanical Technology-Instrumentation Program for a full-time student is two (2) semesters. The program costs for tuition and fees are \$2,675 and approximately \$700 for books and supplies.

**EMERGENCY MEDICAL TECHNICIAN-BASIC
Certificate of Proficiency**

Description

EMT-Basic Course is an introductory study of emergency medical pre-hospital care. The course prepares individuals for employment as a Basic EMT. It follows the national standard curriculum set forth by the Department of Transportation. Instruction includes standard of care, legal/ethical issues, and pre-hospital procedures and techniques performed during emergencies. Upon successful completion, the EMT candidate will meet the requirements to challenge the National Registry EMT-Basic examination.

The EMT-Basic Certificate of Proficiency can be obtained in one (1) semester. The costs are \$550 for tuition and fees and approximately \$150 for books and supplies.

Major Requirements: 8 credits

EMT 1138 Emergency Medical Technician-Basic
EMT-Basic is a prerequisite for the Paramedic Program.

SCHEDULE

		<u>FALL or SPRING SEMESTER</u>	<u>Credit Hours</u>
EMT	1138	EMT-Basic	8
		TOTAL HOURS	8

Specific Requirements: 120 hours in theory
24 hours in the hospital
24 hours in the ambulance (six emergency runs)
8 hours in extrication by State of Arkansas (can use videos, PowerPoint presentations or work with the fire department when training in extrication)

HEALTH INFORMATION TECHNOLOGY

Description

The Health Information Technology Technical Certificate Program is designed to provide individuals with opportunities to acquire the knowledge and skills needed to become a medical assistant, medical office assistant, medical transcriptionist, medical insurance coder, or medical insurance technical with emphasis on the analysis of medical records. Of special note, medical coders must take and pass the national certification examinations that are administered through various accrediting agencies.

Curriculum

Several of the courses required for the Health Information Technology Technical Certificate are also required for the Administrative Information Processing Technical Certificate. Students who want to broaden their knowledge bases and enhance business skills may complete both technical certificates and further continue toward earning the Associate of Applied Science Degree in General Technology.

The length of this program is two (2) semesters and one (1) summer term. Tuition and fees will cost approximately \$2,675; book and supplies will cost approximately \$1,200.

HOSPITALITY SERVICES

Hospitality Skills Certificate of Proficiency

Description

This training provides students with the basic knowledge needed for entry-level employment in food-service and lodging industries. Upon completion of the HOSP 1023 Safety and Sanitation course, students will be prepared to earn the ServSafe™ national certification.

The Hospitality Services Certificate of Proficiency can be earned in one semester.

Hospitality Services Technical Certificate

Program Description

The Hospitality Services program is designed to provide individuals with the knowledge, skills, and technical ability appropriate for employment in a wide variety of positions in the hospitality industry. This program includes supervised internships with work-related experiences to simulate realistic problems and opportunities.

Curriculum

Students may seek careers in the field of hotel and restaurant management, tourism, or guest services. This program prepares students for entry-level positions in the hospitality industry as well as enhancing the skills of individuals currently employed in lodging, gaming, entertainment venues, and restaurants.

The length of this program is two (2) semesters and one (1) summer term. Tuition and fees will cost approximately \$2,500; book and supplies will cost approximately \$1,170.

**NURSING ASSISTANT
Certificate of Proficiency**

Description

The Nursing Assistant (NA) Program focuses on providing knowledge and skills specific to nursing assistant duties. Students will be provided classroom, applied lab, and clinical training in long-term health care facilities. Students who successfully complete the NA Program are eligible to take the skills and written examination that leads to Arkansas State Certification. Those students who successfully become certified are placed on the State Registry as a Certified Nurse Assistant (CNA).

Major Requirement: 7 Hours

The Nursing Assistant Certificate of Proficiency can be obtained in one (1) semester. The costs are \$485 for tuition and fees and approximately \$100 for books and supplies.

SCHEDULE

		<u>FALL or SPRING SEMESTER</u>	<u>Credit Hours</u>
NA	1017	Nursing Assistant Training	7
		TOTAL HOURS	7
		Exit: Nursing Assistant Certificate of Proficiency	

PRACTICAL NURSING

Applying for the Practical Nursing Program

Applicants must complete the following activities (not necessarily in the order listed) to apply for the UAM-CTC Practical Nursing Program:

- Submit an admission application to UAM-CTC
- Submit an application to the Practical Nursing Program at UAM-CTC
- Have an ASSET, ACT, COMPASS, or SAT test that is not more than five (5) years old
- Declare PN Track (AASN or Technical)
- Successfully complete all prerequisites (with the exception of mathematics and English) within the past five (5) years with a grade of "C" or higher
- Have Asset, ACT, COMPASS, or SAT test that meets the minimum requirements specified below:

<u>Test</u>	<u>Reading</u>	<u>Writing or English</u>	<u>Math</u>
ACT	17	15	17
ASSET	40	40	40
COMPASS	76	48	43
SAT		Verbal-400	480

NOTE: See supplemental handout for additional testing information.

Prerequisites for Practical Nursing

Associate of Applied Science in Nursing (AASN) and Practical Nursing Technical Certificate:

BIOL	2233	Anatomy & Physiology I Corequisites: ENGL 1013; BIOL 1063 recommended
BIOL	2291	Anatomy & Physiology I Lab Corequisite: BIOL 2233
BIOL	2243	Anatomy & Physiology II Prerequisites: BIOL 2233; CHEM 1023 Corequisite for CHEM 1023: ENGL 1013; MATH 0183 or equivalent
BIOL	2301	Anatomy & Physiology II Lab Corequisite: BIOL 2243
ENGL	1013	Composition I or higher-level English composition course
MATH	1083	Intermediate Algebra or higher-level mathematics course
PE	2113	Nutrition

OR

Prerequisites for Practical Nursing

Technical Certificate Only

COMM	1203	Tech Communication or higher-level composition course
MAT	1203	Tech Mathematics or higher-level mathematics course
NUR	1514	PN Anatomy & Physiology
PE	2113	Nutrition

Applicants eligible for consideration should schedule a placement exam. The exam can be taken only once per year. Entrance exam requirements must be met to be eligible to take a placement exam. The top ranking applicants, not to exceed twenty (20), will be accepted into the Practical Nursing Program provided all of the following conditions are met:

- Submit transcripts as proof of high school graduation or GED
- Submit transcripts from all colleges and/or technical schools attended
- Attend a scheduled nursing career orientation
- Attend a scheduled Practical Nursing Program orientation
- Complete a personal conference with the UAM-CTC Practical Nursing Program Committee
- Complete a *Student Acknowledgement Statement Form*
- Complete a scheduled individual learning assessment
- Complete scheduled study skills sessions at UAM-CTC

Provide evidence of the following:

- Proof of immunization against measles (two doses), mumps (one dose), and rubella (one dose).
- A current TB skin test (and a chest x-ray if TB skin test is positive)
- A signed Hepatitis B acknowledgement waiver or evidence of the first of three shots

PRACTICAL NURSING

Program Description

The Practical Nursing (PN) Program is approved by the Arkansas State Board of Nursing with regular evaluations to ensure a quality education in the nursing field. The program is designed to prepare qualified individuals to meet community nursing needs and perform those functions which are generally recognized as being within the scope of practical nursing and where the skill of registered nursing is not required. Practical nursing is a career that offers many rewards including the satisfaction that comes from helping others. The practical nursing student is prepared for giving direct and primary nursing care under the immediate supervision of the instructor/clinical instructor, physicians, and staff nurses of the cooperating clinical facilities. Upon satisfactory completion of the Practical Nursing Program, the student is eligible to apply to take the Practical Nursing Licensure Exam.

Curriculum

To be considered for the Practical Nursing Program, applicants must take the ACT, ASSET, COMPASS, or SAT exam. Applicants will be ranked for program acceptance based upon academic and other specific criteria outlined in a separate publication. The top applicants, not to exceed Arkansas State Board maximums for instructor-student ratio, will be accepted into the Practical Nursing Program provided all of the following conditions are met:

1. Applicant must be a high school graduate or high school equivalency (GED) graduate;
2. Applicant must complete UAM enrollment requirements;
3. Applicant must attend an complete all orientations, appointments, assessments, and study sessions required;
4. Applicant must declare their chosen PN track in writing and meet all prerequisite courses required.

NOTE: If candidates do not meet stated conditions/requirements, other candidates—designated as alternates—will be enrolled provided they have met all enrollment conditions/requirements. Alternates accepted will not exceed the enrollment maximum.

Students are enrolled into the program once a year beginning with the fall semester. The curriculum of the program is standardized to meet the approval of the Arkansas State Board of Nursing. Regular evaluations are conducted by the Arkansas State Board of Nursing (ASBN) to ensure continued quality education. The program evaluation and the annual pass rate of graduates on the licensure exam must be within ASBN's established standards in order for the program to receive continued approval. Estimated program costs for the 42 technical courses required for both tracks are \$3,140 for tuition and fees and approximately \$2,050 for books and supplies.

**PRACTICAL NURSING
GRADUATION REQUIREMENTS**
(Tentative Schedule)

Prerequisites for students seeking an Associate of Applied Science Nursing Degree and a Practical Nursing Technical Certificate:

			Credit Hours
BIOL	2233	Anatomy & Physiology I	3
BIOL	2291	Anatomy & Physiology I Lab	1
BIOL	2243	Anatomy & Physiology II	3
BIOL	2301	Anatomy & Physiology II Lab	1
ENGL	1013	Composition I or higher-level English composition course	3
MATH	0183	Intermediate Algebra or higher-level mathematics course	3
PE	2113	Nutrition	3

Prerequisites for students seeking only a Practical Nursing Technical Certificate:

COMM	1203	Tech Communication or higher-level composition course	3
MAT	1203	Tech Mathematics or higher-level mathematics	3
NUR	1514	PN Anatomy & Physiology	4
PE	2113	Nutrition	3

Major Requirements for students seeking an AASN Degree and students seeking a PN Technical Certificate:

Fall Semester

NUR	1162	PN Nursing of Geriatrics/Management	2
NUR	1231	PN Nursing of Mother & Infant	1
NUR	1117	PN Basic Nursing Principles & Skills	7
NUR	1002	PN Pharmacology	2
NUR	1242	PN Nursing of Children	2
NUR	2264	PN Clinical I	4

Spring Semester

NUR	1317	PN Adult Medical-Surgical Nursing I	7
NUR	1101	PN Vocational/Legal/and Ethics	1
NUR	1203	PN IV Therapy	3
NUR	2151	PN Mental Health & Illness	1
NUR	2326	PN Clinical II	6

Summer Term I

NUR	2422	PN Adult Medical-Surgical Nursing II	2
NUR	2414	PN Clinical III	4

Total Technical Hours (Either track) 42
Exit: Technical Certificate in Practical Nursing

WELDING TECHNOLOGY

Program Description

The increased demand for certified welders has generated a need to offer in-depth training and lab experiences necessary for the development of combination and advanced welding skills required for certification in multiple areas. The Welding Technology Program is designed to meet those objectives. Students will be trained in Shielded Metal Arc Welding (SMAW), Gas Tungsten Arc Welding (GTAW), Gas Metal Arc Welding (GMAW), and Pipe Welding.

Curriculum

The Welding Technology Program is designed to provide hands-on training in the lab. Students who successfully accomplish welding skills in accordance with established proficiency standards will be eligible to earn various American Welding Society certifications. Classes are scheduled to accommodate area high school students who would like to attend the program for concurrent credit which awards both high school and college credit. The one-year technical certificate program may be continued to an Associate of Applied Science Degree in General Technology.

The program length for a full-time student is two (2) semesters and one (1) summer term. The program costs are \$2,750 for tuition and fees and approximately \$500 for books and supplies. Supplies will include cutting goggles, safety glasses, tip cleaner(s), Lens #1, helmet, wire brush, gloves, chipping hammer, striker, flints, soapstone holders, and welding sleeves/jacket. *Tests for welding certifications are in addition to the tuition and fees and are based on the type of test being taken.*

Individuals who desire only a Certificate of Proficiency in welding may complete the 11 credit hours indicated with an asterisk (*) in the suggested schedule below.

GRADUATION REQUIREMENTS

(Suggested Schedule)

		<u>Fall Semester</u>	<u>Credit Hours</u>
WELD	1103	Blueprint Reading	3
WELD	1115	*Basic Welding	*5
WELD	1215	*SMAW (Shielded Metal Arc Welding)	*5
