

FINANCIAL ASSISTANCE

A variety of financial assistance packages are available to University students. The four categories of aid are: grants, loans, part-time employment, and scholarships.

The Financial Aid Office, located in the Babin Business Center, administers Federal grants, loans, and part-time employment, which are described below.

Grants are the first type of aid awarded to eligible students. If eligibility for assistance still exists, students may be awarded part-time employment or loans to meet their individual needs.

Students may apply for all Federal aid programs and the Arkansas State Student Assistance Grant by completing one application. The application packet may be obtained from the UAM Financial Aid Office, P.O. Box 3470, Monticello, AR, 71656 or by calling (501) 460-1050. Students are encouraged to apply early as some types of aid are limited in funding.

Verification of applicant data may be required. The Financial Aid Office will request any required verification documentation. This documentation must be submitted within two weeks of the request. No financial assistance will be awarded until the documentation is received and the applicant data is determined to be correct.

Federal financial assistance will be awarded and the student notified when the application for assistance is complete. Disbursements will be made by crediting the student's account for the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Arkansas Student Assistance Grant, and Federal Perkins Loan awards each term the student is eligible. Earnings from federal and institutional work-study are paid to students once each month by check. Work-study checks must be endorsed and applied to a student's account if a balance is owed. Students may have financial awards which exceed their institutional expenses. Students should refer to the "Schedule of Classes" for each term to determine when refunds will be disbursed. Federal Stafford Student Loan funds must be applied, in full, to the student's account. Federal PLUS loan funds are co-payable to the University and the parent. The parent must endorse and return the check to the University for University endorsement. The check must then be applied, in full, to the student's account.

GRANTS

The **FEDERAL PELL GRANT** is designed to provide financial assistance to students seeking postsecondary education. Federal Pell Grants are intended to be the "ground floor" of the financial aid package and may be combined with other forms of aid in order to meet the needs of students. Student eligibility is primarily based on a "financial need formula" developed by the U.S. Department of Education. Since the Federal Pell Grant is a grant award, it is not to be repaid.

The **FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)** is designed to provide financial assistance to students who have exceptional financial need. These awards do not have to be repaid. The **ARKANSAS STATE STUDENT ASSISTANCE GRANT** is available to students whose financial need has been determined by the application for financial aid. This grant is made available only to residents of the State of Arkansas and does not have to be repaid. The Arkansas Department of Higher Education notifies students of their eligibility for this award.

LOANS

The **FEDERAL PERKINS LOAN PROGRAM (formerly NDSL)** assists students by providing a low-interest education loan to students qualifying on the basis of "financial need." Repayment of this loan may extend over a ten-year period beginning nine months after the borrower ceases to be a full-time or half-time student. Interest (5%) starts at the beginning of the repayment period and is charged on the unpaid balance of the loan principal. For borrowers who become teachers in certain types of schools (or teach in fields of expertise that have a shortage of qualified teachers) there are cancellation provisions. Cancellation provisions may also be extended to full-time nurses or medical technicians. Also, borrowers who serve in specified military duty may be eligible for cancellation provisions.

The **Federal Stafford Loan Program (formerly Guaranteed Student Loan)** can provide either subsidized or unsubsidized low interest loans to students enrolled at least half-time. **Subsidized** loan funds can be awarded to students who have "unmet need" remaining when all other types of aid have been awarded. The Federal government pays the interest on these subsidized loans while the student is enrolled and through the grace period. **Unsubsidized** loan funds might be awarded to students who have no "unmet need" remaining after all other types of aid have been awarded. The Federal government does not pay the interest on these unsubsidized loans while the student is enrolled. The student can choose to pay the interest or the interest can be capitalized. Some students might be

awarded a combination of subsidized and unsubsidized loan funds. Repayment of these loans may extend over a 10-year period beginning six months after the borrower ceases to be enrolled at least half-time.

The **FEDERAL PLUS LOAN PROGRAM** makes loans available to the parents of dependent undergraduate students. Each borrower must use the loan funds to pay for the student's educational costs. Unlike other Federal Family Education Loan Programs, PLUS borrowers are not required to show financial need, but must complete the Free Application for Federal Student Aid. The amount borrowed cannot exceed the cost of education.

PART-TIME EMPLOYMENT

Money is also available in the form of part-time employment. Employment opportunity is made available to those students who qualify and who need an income supplement to partially defray college expenses. Student employment generally falls into two categories: Federal College Work-Study, which is determined on the basis of financial need; and Institutional Work-Study, which is determined principally by the degree of work skills possessed and availability of jobs. Types of employment opportunities at the University include secretarial, clerical, custodial, resident assistants, library, maintenance, and lab assistants.

REPAYMENTS

Students who receive cash disbursements of Title IV aid and later terminate their enrollment require institutional review to determine if there has been an overpayment, and therefore, if repayment is required. "Repayment" designates the amount that a student must repay, of the funds he/she received in cash, that could not have reasonably been spent for non-institutional costs during the student's period of enrollment.

If repayment is required, the following priority of distribution is prescribed by Federal regulation: Federal Perkins Loan; Federal Pell Grant; FSEOG; Other Title IV aid programs; other federal, state, private, or institutional aid. The portion of a repayment allocated to a program may not exceed the amount the student received from that program.

REFUNDS

Current Federal regulations require that a refund calculation be performed whenever a student who has received any Title IV aid withdraws from the University before the student completes the period of enrollment for which he/she was charged. The refund calculation will determine the amount of unearned institutional charges that must be returned to the student or to Federal programs on behalf of the student.

The University must calculate and compare the amount of refund a student would receive according to:

1. The University of Arkansas System refund policy.

Institutional Refund Calculation	
If Student Withdraws	Percentage of Institutional Charges that Must Be Refunded
Class Day 1 -5	100%
Class Day 6 - 10	50%
Class Day 11 -	0%

2. The Statutory Pro-Rata refund policy (applies only to students attending the University for the first time who withdraw on or before the 60% point of the term).

Pro Rata Refund Calculation	
If Student Withdraws	Percentage of Institutional Charges that Must Be Refunded
After the first day through the first 10% of the enrollment period	90%
After the first 10% through the first 20%	80%
After the first 20% through the first 30%	70%
After the first 30% through the first 40%	60%
After the first 40% through the first 50%	50%
After the first 50% through the first 60%	40%
After the first 60% of the enrollment period	00%

3. The Federal refund policy

Federal Refund Calculation	
If Student Withdraws	Percentage of Institutional Charges That Must Be refunded
On the first day of classes	100%
After the first day through the first 10% of the enrollment period	90%
After the first 10% through the first 25%	50%
After the first 25% through the first 50%	25%
After the first 50% of the enrollment period	0

For every student receiving Title IV funds, the University must compare the possible refunds and use the calculation that provides the largest refund. It is prescribed by law and regulation that funds must be distributed in the following priority: Unsubsidized Federal Stafford Loan; Subsidized Federal Stafford Loan; Federal PLUS Loan; Federal Perkins Loan; Federal Pell Grant; FSEOG; Other Title IV aid programs; Other federal, state private or institutional aid; The student.

Examples of actual refund calculations can be obtained in the Financial Aid Office located on the second floor of the Babin Business Center.

SCHOLARSHIPS

All scholarships awarded by the University of Arkansas at Monticello are competitive and awards are based upon demonstrated academic ability or performance skills. Renewable scholarships require the student to meet and maintain specific criteria. IV. Privately Funded Scholarships

Several scholarships, funded by individual and corporate donors, are awarded by the institution and/or the UAM Foundation Fund. The donor of the funds for each scholarship restricts the award by specifying criteria for selection of each recipient. Some scholarships require the applicant to meet qualifications of test scores, grade point, skill, or major. Others are based upon proven financial need, place of residence, or chosen major of the applicant.

These scholarships are usually awarded to persons in specific academic majors. Scholarship amounts and eligibility requirements vary. Contact the dean or chair of the academic major for information and application materials.

The following is a listing of private scholarships that are awarded by the institution.

A. Endowed Scholarships

An endowed scholarship is funded by interest from a principal amount donated to the institution. The institution does not award a scholarship from the endowed principal, and therefore, the scholarship continues for as long as the institution retains the principal donation.
