

**University of Arkansas at Monticello  
Program of Study**

**Bachelor of Science Degree in Computer Information Systems**

To be eligible for graduation with a baccalaureate degree from the University of Arkansas at Monticello, a student must file a Program of Study approved by her/his advisor upon entering the University. The Program of Study must contain a minimum 124 semester hours of unduplicated credit at the 1000-level or above, 40 of which must be upper level (3000-4000) credit hours. Specific degree requirements are listed at the end of this Program of Study. The Program of Study is for informational purposes only; it is the responsibility of the student to fulfill all requirements for graduation. The Program of Study is subject to change as academic program changes are needed to comply with Arkansas Department of Higher Education requirements. **NOTE:** Some courses require prerequisite and/or co-requisite classes. Some courses may only be offered during specific semesters. Contact the program unit head for specific information. Students who score below the required minimum level on placement exams must take additional credit hours as part of this University's developmental education program. See the current academic catalog for more information. Courses that fulfill the General Education Requirements are in italics. Courses that fulfill the major course work requirements are in bold. Courses that fulfill supportive requirements are underlined.

Bachelor of Science Degree in Computer Information Systems - The goal of the program in Computer Information Systems is to advance the development of those intellectual, personal, and professional attributes that prepare students to shape the complex computer software environment of the future. Graduates are prepared to begin careers as computer programmers, rapidly progress to systems analysis responsibilities, and ultimately to occupy positions in management of information systems. Students augment their Computer Information Systems learning with selected courses in business and communication. This comprehensive program allows graduates to confidently advance in the complex business environment of the future. For more information about this program, contact the UAM Division of Computer Information Systems in the Babin Business Center (BBC), Room 101, or call 870.460.1031.
