August 2010

Colleagues,

One of the greatest opportunities is being able to develop partnerships and relationships in life. The UAM Education Renewal Zone (ERZ) Office is one of these opportunities. The UAM ERZ was established in 2005 as part of a statewide initiative to connect the area schools, the cooperative, and universities to building relationships to impact the classrooms from Pre-K through university level. The ERZ Office is here to help build the connections in southeast Arkansas.

In this resource guide, you will find the contact information and areas of specialty for the UAM faculty that are willing to help in the classroom. If the area of specialty that you need is not listed please contact the ERZ office and we will try to locate someone for you. If you would like assistance in your classroom with projects, guest speakers, mentors, or anything else, please contact the ERZ Office and we will facilitate the process. UAM and ERZ are supporting teachers!

Sincerely,

Tracie A. Jones  
UAM ERZ Director
