

NURS 2264:

Clinical I SPRING 2012

Course Description: This course provides the student with an opportunity to obtain simulated and actual experience in the laboratory setting, long-term care facilities and acute-care facilities. This will provide students with an opportunity to apply principles studied in the classroom, particularly those learned in basic nursing and geriatrics. Students will perform return demonstrations of practiced lab skills in the presence of an instructor.

Prerequisites: The practical nursing program is progressive. Students must have successfully completed the following courses with a C or better: BIOL 2233 Anatomy & Physiology I, BIOL 2291 Lab Anatomy & Physiology I, BIOL 2243 Anatomy & Physiology II, BIOL 2301 Lab Anatomy & Physiology II, PE 2113 Nutrition, ENGL 1013 Composition I, MAT 1203 Technical Mathematics or higher level of mathematics course. Before attending clinical, a student must have successfully checked-off on all scheduled skills.

Instructor: Kim Ray R.N., Nikki Calhoun R.N. and Peggie Orrell, RN

Office Hours: Kim Ray: MWF 1000-1200, T, H 0930-1030, other times by appointment
Nikki Calhoun: M-F 1100-1200, other times by appointment
Peggie Orrell: 0800-1000 and 3:30-4:30 every day

Attendance: See Nursing Handbook for policies regarding attendance.

Homework: Any work/research needed to be prepared for the clinical experience. You must successfully complete two (2) satisfactory care plans to successfully complete the course by the assigned date. See schedule below. You may

NOT complete care plans during makeup clinical time. There will not be makeup time scheduled for the purpose of care plan completion. If you do not successfully complete 2 care plans you will not be eligible to continue in the program. You will be required to keep a clinical journal each day of your clinical experience. It will be for a grade. Each entry will be worth one point. See handbook for details of content.

Skills Check off: The competency skills check off list should be brought to each clinical period and lab experience. It is your responsibility to obtain the instructor's/staff's signature on each skill in which you are evaluated.

Exams: There will be scheduled exams given during the course. See Schedule below.

Evaluations: There will be 100 point evaluations given each week during the course. See handbook for evaluation criteria.

Grading Policy: Each clinical week you will be clinically evaluated based on clinical performance (see practical nursing handbook for copy of evaluation), which is worth 100 points and you will also have a clinical exam. A comprehensive clinical final will also be given. Points will be totaled at the completion of the course and your grade will be the percentage of what you scored related to the points possible. To progress through the program, students must pass this course with a 78% or above. 100-93% = A, 92-85% = B, 84-78%=C,

Conduct Code: Disorderly Conduct: Any behavior which disrupts the regular or normal functions of the university community, including behavior which breaches the peace or violates the rights of others. See Nursing Handbook.

Students with Disabilities: It is the policy of the University of Arkansas at Monticello to accommodate individuals with disabilities pursuant to federal law and the University's commitment to equal educational opportunities. It is the responsibility of the student to inform the instructor of any necessary accommodations at the beginning of the course. Any student requiring accommodations, should contact the Office of Special Student Services representative on campus: phone (870) 222-5360; fax (870) 222-4709.

UAM will no longer mail grade reports to all students. You may access your grades through Campus Connect www.uamont.edu. To have your grades mailed to you, complete the grade request form available at the Student Services office on the McGehee campus.

Please refer to the Practical Nursing Handbook for important clinical policies.
