The University of Arkansas at Monticello College of Forestry, Agriculture and Natural Resources and the Arkansas Forest Resources Center are seeking applicants for a tenure-track faculty position to contribute to and lead a dynamic academic and research program in Conservation Social Science, natural resources human dimensions, and communications.

The College of Forestry, Agriculture & Natural Resources is home to undergraduate programs in Natural Resources Management (options in forestry, wildlife management & conservation, geospatial science, environmental science, and communications), Agriculture (options in Agribusiness, Animal Science, Plant and Soil Science, Site Specific Management, and General Agriculture), and in Land Surveying, and offers a M.S. level graduate program with emphasis areas in forest science, geospatial science, wildlife ecology and management, and natural resources management. The Arkansas Forest Resources Center, administered by the University of Arkansas System Division of Agriculture, is headquartered at the University of Arkansas at Monticello campus in partnership with the College of Forestry, Agriculture & Natural Resources. The Center has the statewide mission of developing and delivering programs in research and extension that enhance and ensure the sustainability of forest-based natural resources.

**Responsibilities:** We are seeking a dynamic scholar, educator, and social scientist for a 12-month tenure-accruing appointment available in the College of Forestry, Agriculture, and Natural Resources (CFANR) at the University of Arkansas at Monticello. The successful candidate will make a substantial contribution to increasing instructional capacity in a key focus area of CFANR majors, namely in the area of Conservation Social Sciences. The candidate will instruct courses related to the social aspects of natural resource management. The successful candidate also will develop a regionally and nationally recognized research program in the area of Conservation Social Sciences. Specific areas may include resource governance, communication, conservation behavior, community engagement, environmental education, environmental psychology, environmental justice, or collaborative adaptive management. The successful candidate will mentor and supervise undergraduate and graduate students and engage in curriculum enhancement and the scholarship of teaching and learning. This appointment will be 60% teaching (CFANR) and 40% research (University of Arkansas Agricultural Experiment Station).

**Qualifications:** Candidates must possess a doctorate (PhD or equivalent) with an emphasis on a social science applied to conservation, natural resource management, or closely related natural resources or social sciences discipline. Candidates must have a demonstrated commitment to teaching, experience or interest in mentoring students, and promotion of a diverse educational and professional environment. They must have clear evidence of scholarship through first-authored publications and experience working with stakeholders. Candidates should have demonstrated skills in verbal and written communication, interpersonal relationships, and procurement of extramural funding.

**Salary:** Commensurate with qualifications including excellent fringe benefits.

**Application:** Submit a cover letter, résumé, transcripts, a statement of research interest and teaching philosophies, and names, addresses, telephone numbers and email addresses of at least three professional references (off-list references may be checked) to: Rhonda Parris, parris@uamont.edu. All material must be submitted electronically, and all applicants must also complete an Employment Application available at https://www.uamont.edu/jobs/EmploymentApplication.pdf. Inquiries: Phone (870) 460-1052; email: parris@uamont.edu.

Review of applications will begin immediately and continue until position is filled.
