GRADUATE CERTIFICATE
WATERFOWL HABITAT & RECREATION MANAGEMENT

18 CREDIT HOURS 2 SEMESTERS

Five Oaks Agriculture Research and Education Center (FoAgREC) and the University of Arkansas at Monticello are recruiting students for the inaugural year of a 1-year graduate certificate program. The future of land management to preserve waterfowl and wetlands is in the hands of the next generation of skilled resource professionals. We are dedicated to providing a hands-on education and training experience to prepare our students for a rewarding and challenging career in waterfowl and wetland management.

CURRICULUM: Wetland Ecology - Decision Making - Land/Lodge Management - Field Applications - 2 Electives

For more information on the program and requirements, go to:
https://www.uamont.edu/academics/CFANR/waterfowlhabitat.html

Successful candidates for scholarship and acceptance to the graduate certificate program will be selected from those that attend the 1-week Recruitment Course.
