How to connect to Guest Wi-Fi on MacBook

Step 1: Open your laptop. Click on the Internet icon up in the top right-hand corner of your computer's taskbar. You should see the list of available networks listed. If not, click on Other Networks. Click on the UAM-Guest-M network to get started.

.

Step 4: An internet browser should open, and you should now see a screen that reads UAM Guest Portal. If you already have registered to access the portal, you may enter your username and password and click Sign On. If you have never accessed the UAM-Guest-M network, you will need to complete the registration steps. Click on the link that reads "Or register for guest access" to move to the next phase of the process.

UAM Guest Portal	
Welcome Sign on for guest access.
